Some venues may need to be changed at short notice on the advice of the Pond Wardens or FMO/AFMO. Please check the PDAS website, Facebook and forums for more information.

Match Secretary will, at any match, designate pegs to be drawn by our less able members. Priority given to registered disabled or blue badge holders. It is expected that such members register with the Match Secretary at commencement of the season.

Note that restrictions may apply to the number of anglers due to peg availability.

Winter League and Summer League Anglers to drop two matches worst results. Points, section wins and weight in that sequence to determine winner.

Scoring will be DNW = zero points.

All fish, with exception of pike, caught by legitimate means will count.

All club water rules will apply. It is the responsibility of all anglers to be familiar with these rules. In addition, two keepnets must be used and in the water on all matches. Keepnets should be laid out and not put into water until fifteen minutes before match all in. Unhooking mats must be available and used at weigh in.

Float Trophy matches are running line/ float only no poles or whips. Inline with previous seasons the current holder will be invited to fish the final.

The Match Secretary reserves the right at any match to ask for presentation of membership card. This will happen on the first match of each season.
